- **Gender:** Male **Marital Status:** Unmarried
- **Languages known:** English, Telugu, Hindi.
- **Residential address:** Merakamudidam village, Vizianagaram District, Andhra Pradesh, India, 535102.

Personal Interests & Activities

- Content Provider on Oppo Mobile Theme Store & UI customizer on Android Apps.
- Proficient in diagnosing and repairing electronic equipment, including smartphones, televisions, laptops, and household appliances.
- Decoding existing applications and webpages.

Work Experience

- ❖ **Infosys** (Dec 2021 – Feb 2024)

Designation: Senior Systems Associate

Location: Hyderabad, Mysore.

Project Experience

- ❖ **Account:** Australin open | Rolland Garros

Technologies used: React, JavaScript, Node js, Axios, HTML, SCSS, MUI.

- Developed and maintained responsive and cross browser compatible web applications using React.js.
- Implemented pixel-perfect UI/UX designs in collaboration with the design team, shortening development duration by 25% and achieving a 97% accuracy rate in visual fidelity.
- Worked closely with backend developers, achieving 100% seamless integration of front-end and back-end components, resulting in a 30% reduction in post-launch bugs.
- Conducted thorough testing and debugging, resolving 95 percent of frontend issues before the client testing phase.
- Provided production support, ensuring 99.9% uptime and addressing critical issues with an average resolution time of 4 hours.

- ❖ **Account:** Zoiee ChatBot - An assistant chat bot in Lex Learning platform of Infosys (Internal project)

Technologies used: Angular, TypeScript, CSS, HTML5, Node JS.

- Developed a chat assistant for a learning platform that helps users find relevant courses and certifications.
- Designed and implemented the chat UI with Angular components for seamless interaction.
- Managed real-time communication between the user and backend using WebSockets for instant feedback and course suggestions.
- Conducted unit and integration testing to ensure the chat's accuracy and performance.
- Ensured the assistant could handle a range of user queries and provide intelligent, personalized responses.
